The Privacy Rule (45 CFR Part 160 and Subparts A and E of Part 164) provides the first comprehensive federal protection for the privacy of health information. The Privacy Rule is carefully balanced to provide strong privacy protections that do not interfere with patient access to, or the quality of, health care delivery. HIPAA has an impact upon how OPWDD and contractors will deal with protected health information of our consumers. Likewise, State Mental Hygiene Law § 33.13 requires disclosure of clinical records to be limited to that information necessary for health care providers to administer treatment.

P. General Duties and Additional Responsibilities

Maintain a level of cooperation with OPWDD necessary for the proper performance of all contractual responsibilities. Agree that no aspect of bidder performance under the Agreement will be contingent upon State personnel, or the availability of State resources, with the exception of all proposed actions of the bidder specifically identified in the Agreement as requiring OPWDD's approval, policy decisions, policy approvals, exceptions stated in the Agreement or the normal cooperation which can be expected in such a contractual relationship or the equipment agreed to by OPWDD as available for the project

completion. Cooperate fully with any other contractor that may be engaged by OPWDD. Agree to meet periodically with OPWDD representatives to resolve issues and problems. Recognize and agree that any and all work performed outside the scope of the Agreement or without consent of OPWDD shall be deemed by OPWDD to be gratuitous and not subject to charge by the bidder.

“Contractor shall comply with the provisions of New York State Information Security Breach and Notification Act (General Business Law § 889-aa; State Technology Law § 208). Contractor’s negligent or willful acts or omissions, or the negligent or willful acts or omissions of Contractor’s agents, officers, employees, or subcontractors.”

The “New York State Information Security Breach and Notification Act” requires entities that conduct business with New York State and own or license “private” data to notify state residents affected by any security breach that results in unauthorized acquisition of the data. “Private” data is defined as unencrypted computerized information that can identify the individual, combined with one of the following data elements: (a) social security number, (b) driver’s license or non-driver identification number” or (c) financial account information such as credit card or debit cards numbers in combination with access codes or PIN numbers. (Private data is considered unencrypted when either identifying information or the data element is not encrypted or is encrypted with a key that has been acquired).

The Act authorizes the State Attorney General to sue a business violating the statute in order to recover damages for actual costs or losses, including consequential financial losses incurred by persons entitled to notification. If a business engages in knowing or reckless violations, the court can impose a civil penalty of the greater of \$5,000 or \$10 per instance of failed notification up to \$150,000. The remedies provided by this section shall be addition to any lawful remedy available, possibly permitting private actions.

15. Consumer Safety Information

OPWDD provides services to individuals exhibiting Pica, which is a medical disorder characterized by an appetite for largely non-nutritive substances, e.g., cigarette butts, paper, gum, etc. Attention to the sanitation and cleanliness of the areas surrounding OPWDD's state operated program sites and residential buildings is very important to the health and safety of those we serve. Please ensure care is taken to properly dispose of cigarette butts and rubbish while on OPWDD property.

OPWDD property has special receptacles for cigarette butt disposal. Contractor and subcontractor employees shall use these receptacles and throw trash in garbage cans or dumpsters. Compliance with this policy is appreciated.

16. Consultant Disclosure

Effective June 19, 2006, contractors doing business with the State of New York in a "consulting" capacity will be required to file forms disclosing, by employment category, the number of persons employed by them and their subcontractors (if any) as a consulting firm or an individual consultant; the number of hours worked; and the monetary compensation received from the State of New York for work performed by these employees. Form B is required annually and reports on "actual employment figures" for the preceding state fiscal year. The New York State fiscal year commences on April 1st and concludes on March 31st.

Only proposals judged to be responsive to the submission requirements set forth in this IFB will be evaluated. An incomplete Cost Proposal Form or any alteration to the Cost Proposal Form may result in your bid not being considered. OPWDD reserves the right to reject any and all offers.

C. Mathematical Errors

If the vendor submits a cost proposal which contains mathematical errors, the Total Price Per Season Per Cluster will be calculated using the pricing submitted for Total Price Per Season column.

D. Confirmation of Ability to Provide Service

OPWDD reserves the right to confirm any Bidder has the qualifications, experience, ability, and financial standing to perform services as outlined in the scope of work. This may include requesting information regarding equipment, workforce, suppliers, etc.

Qualifications & Scope of Work

The following specifications cover Snow and Ice Removal for OPWDD community residences in Livingston and Monroe Counties. A site listing with addresses and telephone numbers is included in Exhibit A – Site Information. The residences are occupied by a developmentally disabled population including some individuals who are medically or physically disabled, as well as some who are confined to wheelchairs. OPWDD residents often require an additional level of care regarding snow and ice removal due to functional mobility limitations.

It is extremely important during inclement weather that all efforts are made to have the sites accessible and safe for individuals and staff. To have accessibility, snow removal must automatically commence at the accumulation of 3 inches at the contracted site. It is the Contractor's sole responsibility to ensure they are aware of when each site on this contract has accumulated 3 inches of snow. The House/Program Manager or designee has the right to call for additional service as deemed necessary for safety concerns. Service will be provided 7 days per week and 24 hours per day.

The Contractor's employees will adhere to all OPWDD policies and regulations, including but not limited to smoking, parking, etc. The Contractor will cooperate with House/Program Managers and staff and will comply with the safety and security requirements imposed by the site.

Snow removal and ice control services detailed in the Scope of Work will be paid by one seasonal price, spread out over six (6) equal installments as further detailed in Section II. Accounting.

I. DETAILED SPECIFICATIONS:

A. Snow Removal Services

Snow must be removed by plowing all driveways, parking areas and driveway exits. It is the Contractor's responsibility to clear snow from the entire driveways, parking areas and driveway exits.

All sites must be cleared of accumulated or drifting snow of 3 inches or more by 7:00 am, 2:30 pm and 11:00 pm.

Driveways, parking areas, and parking exits are to remain open and at full width and visibility throughout the contract period.

Snow must be removed to a storage area designated by the House/Program Manager or their designee. Banking of snow will be limited in height so as not to restrict visibility at the entrance to the roadway. Snow will not be pushed against houses, vehicles, buildings, entranceways, sidewalks, exit doors, fire hydrants, trash receptacles, garage doors, shrubbery, trees, or emergency generators. Care must be taken to not damage or push snow on adjoining properties. Snow will not be placed where it blocks public walks.

The contractor may, for the duration of each snow season, place visible markers in work areas.

B. De-Icing Services

Contractor must be able to provide ice control services 24 hours per day, seven days per week for community residences. This includes sleet and freezing rain occurrences as well as during snowfall events.

Ice control for driveways and parking areas will be accomplished by the application of contractor supplied de-icer. De-icer will be applied at rates and densities in line with industry standards and sufficient to maintain all affected areas so ice buildup is minimized in order to avoid potentially slippery conditions.

De-icing application must **immediately** follow every plowing to bare surface.

At temperatures below 15 degrees Fahrenheit, abrasives such as sand, provided by the Contractor, may be added to enhance traction.

At the end of the season, all excess sand/salt must be removed from the premises at the Contractor's expense. The House/Program Manager will determine the presence of excess salt/sand.

Contractor must supply all appropriate Material Safety Data Sheets (MSDS) to each contracted site's Program/House Manager or designee.

C. Contractor Damages

Only qualified operators and proper equipment will be used along with special efforts to prevent abuse and damage to surfaces of paved roads, walks, curbs, barriers, landscape effects, and grass areas. The Contractor will be responsible for the repair of all damage to property, landscape, walkways, or any structures of the State or neighboring properties caused by the contractor's employees or equipment. The Contractor must notify the House/Program Manager or designee immediately of an event causing damage to the property.

The Contractor will be responsible for, and will be notified by OPWDD of, all damage to buildings, curbing, walkways, fences, signs, trees, shrubbery, etc. as it is discovered and until the end of the snow season. At the end of the snow season, the Contractor will be solely and wholly financially liable for any reported damage and must comply with the instruction of the Plant Superintendent, House/Program Manager or designee in returning the property to its pre-season condition.

The Contractor must complete all damage repairs by April 30th of the calendar year. If the repairs are not completed by that time, OPWDD may find an alternative Contractor to complete the repairs. The cost for these repairs will be billed to the Contractor that caused the damage or reduce payment for the total cost incurred.

If Contractor causes damage to a staff or State-owned vehicle, the Contractor must notify the House/Program Manager or designee immediately. Contractor will be responsible to report the damage to their private insurance company and exchange insurance information with the staff person if it was a personal vehicle.

D. Additional Requirements

Contractor must be available for call-in by the House/Program Manager or designee if snow accumulation or drifting snow restricts travel on driveways, parking areas, or driveway exits. Response time must be within two (2) hours of call. Contractor must provide a phone number for accepting calls 24 hours per day and 7 days per week. OPWDD must be notified immediately of any phone number changes.

Under no circumstance will the Contractor move any vehicles, personal or State owned. If vehicles block the driveway or parking areas, every effort must be made to have staff at the sites move vehicles in order to allow a complete clearing of parking areas and walkways. The Contractor must call the house 30 minutes prior to expected arrival to allow staff adequate time to clear and move vehicles parked in snow removal areas. The Contractor is not responsible for shoveling out vehicles. There may be occasions where staff are unable to move vehicles due to staffing levels. In such cases, Contractor is to clear snow as best they can and inform House/Program Manager or designee.

Contractors must use sufficient size plows and have commercial quality salt/sand/calcium chloride spreading equipment to remove snow and ice from the driveways and parking lots at the locations. Manually broadcast spreading with a shovel from the bed of a pick-up truck does not provide enough coverage to driveways and parking lots. Contractor must have adequate staff and equipment to accomplish the snow removal and ice control services without delay. OPWDD reserves the right to request detailed listings of equipment, staffing, service routes, etc.

Contractor is to adhere to local/state noise control ordinances/laws and is responsible to follow all State, local and municipal codes regarding the plowing of snow from OPWDD property and roadways. Contractor must possess and provide, at no cost to the State, appropriate licenses and permits associated with the provision of snow and ice control services.

Pursuant to the conditions above, the method of snow removal, equipment used, and plan of action will be up to the Contractor's discretion.

In the event the Contractor fails to remove snow, within the time frames listed above and the OPWDD is required to procure services from another vendor, the Contractor may be held liable for any costs over and above the contractual price for the site(s) involved. In such a situation, the additional cost for these services will be billed to the Contractor or payment will be reduced for the additional cost incurred.

E. Non-Covered Services

Snowbank pushback and Snow removal with heavy equipment is not covered under this contract. These services may be contracted out separately or procured through Purchase Orders separate from this contract by the OPWDD Business Office and OPWDD Work Control Office.

F. Assignments/Subcontracting

The Contractor selected to do the work set forth herein will not assign or sub-contract all or any part of said work without the express written permission of OPWDD.

II. ACCOUNTING:

A. Pricing & Payment Structure

Snow removal and ice control service is based on **seasonal** pricing. The seasonal price for each cluster will be paid in six (6) equal installments. The first invoice of the season is to be dated December 1st and subsequent invoices (January through May) are to be dated on the first of each month. Invoices are to be submitted for payment no later than 30 days from the invoice date. If no service is required prior to December 1st, Contractor must still submit an invoice to receive initial seasonal payment. Payment will be made after receipt of invoices as detailed in **Invoices**. The sixth and final seasonal payment each year will be processed once the final invoice is received (no later than May 31) and damages that may have been caused by the Contractor have been satisfactorily repaired, as detailed in Section I Part C. **Contractor Damages**.

B. Job Tickets:

Job tickets are not required; however, OPWDD reserves the right, at the discretion of the OPWDD Business Office, to implement their use. If implemented, the Contractor would be required to complete a job ticket to be presented to the site manager or staff upon completion of each service; site manager or staff will sign job tickets if service is satisfactory. Job tickets will then be provided as directed to the OPWDD Business Office for payment to be made.

C. Prevailing Wages:

Prevailing Wages do not apply to this contract.
